JOEY CARROLL'S ONE-PAGE PROFILE

Plan developed by Joey; her daughter, Abby Rose; her husband, Lee; & her poodle, Charlie-Alexander.

OCTOBER 5, 2016

What I like about myself...

"I believe that with the right motives, attitudes and resources... anything is possible."

I listen and ask questions until I understand.

I try to be "present" in every moment.

I love life and insist on being happy.

What is important TO me?

"It is important to me to make a positive difference in the lives of others."

Spending time with family is important to me.

Continuing to learn and mature in my personal and professional life is important to me.

I am happiest when I feel I am doing my best.

I love to look for travertine onyx on the beaches of Santa Barbara and Jalama.

What is important FOR me?

- I enjoy a quiet, organized environment.
- I appreciate honest, constructive feedback from others.
- It is important for me to sleep at least 7 hours each night.
- Independence, autonomy, and alone time are important for me.

A majority of adults with developmental disabilities are unemployed or underemployed. According to a Bureau of Labor Statistics survey of disabled adults, that's largely because of a lack of **training and education**. (Wong, 2016)

\$10,400

Per Intern, Per Year

A Paid Internship Program is available to job seekers served by Tri-Counties Regional Center who want to work full- or part-time, become self-employed, or develop skills as an apprentice. There are five main requirements for the internship program:

PAID INTERNSHIP PROGRAM Up to \$10,400 per Year

1) The intern must earn at least minimum wage and make the same amount of money that other employees make doing the same job.

2) The intern must be doing an individual job and be included in community and/or worksite activities to the same extent as individuals without disabilities.

3) The internship must help the intern reach one of the goals that were chosen during the planning meeting with the service coordinator.

4) The goal of the internship may be to get hired at the internship site or to get work experience that will increase opportunities for future employment.

5) The total funding available for each internship is up to \$10,400 (ten thousand and four hundred dollars) per year. These funds cover individual wages and include any other employer costs.

How Do I Get Started?

1) Contact your TCRC Service Coordinator and say you want to have a Planning Team Meeting to talk about doing an internship. Tell your service coordinator WHO you would like to have with you at your meeting.

2) Prepare for the meeting by thinking about what kind of work you would like to do. Consider your skills, experiences and interests as well as whether you think you will need job support to be successful.
