## DATA DEFINITIONS AND CAVEATS

### STUDENT TYPES

Student types are reported based on participation in activities, or enrollment into adult education coursework at a community college noncredit program or an adult education school located in a K12 School District.

**Reportable Individuals:** Reportable Individuals are people who are at least 16 years of age at the time of entry and receive *any* noncredit support service or participate in one or more instructional contact hours at a K12 adult school or noncredit community college program that is part of an adult education consortium. Students under age 18 are eligible as emancipated minors to enroll in adult education. While California Adult Education Program (CAEP) funding can only be used for students 18 and older (per education code), the dashboard collects data on many other adult education students regardless of funding source which all have various age requirements. For example, WIOA Title II does include students 16 to 18 years of age.

**Participants:** Participants are reportable individuals who receive 12 or more instructional contact hours at any institution within the academic or program year. The 12 instructional contact hours can come from enrollment in any combination of AEBG programs. Participants are counted within a program area (described below) when there is at least one program flag or one or more instructional contact hours matching the program criteria. There is research being conducted to validate positive attendance in place of contact hours at the course level in both TE and COMIS.

**Drilldowns:** The drilldowns by gender, race/ethnicity and age group are still available in the “Drilldown” selection box. Program Type is also available as a selection in the “Drilldown” selection box by ABE, ASE, ESL and CTE depending on the metric displayed. However, a new way to look at most of the Detailed Data graphs has been added with a “Student Type” selection box as part of Release 3.0. There are three options in that selection box: All (Enrolled) Students, First-Time Students, Returning or Continuing Students. It is possible to make selections in both of the drilldown boxes to see the results on the displayed graph. All disag options (gender, ethnicity, age) and Student Type drilldowns will add up to 100% of the metric overall value.

**Alignment with Student Success Metrics 2.0 Dashboard for COMIS:** Students considered Adult Education students for the Adult Education Pipeline dashboard can be included in two of the student journeys on the Student Success Metrics (SSM) dashboard: Adult Education/English as a Second Language Student Journey or Short-Term Career Education Student Journey.

SSM students are assigned to journeys based on the educational goals that students select, either as their informed goal once enrolled in community college, or from OPEN CCC Apply version of the application form (if no informed goal is available) or based on course taking behavior that indicates adult education course-taking for both Adult Education/English as a Second Language and Short-Term Career Education.

*For Adult Education/English as a Second Language Students:*

- Goal: To improve basic skills in English, reading, or math
- Goal: To complete credits for a high school diploma or GED
- Goal: To move from noncredit coursework to credit coursework
- Enrollment pattern: Took 12+ contact hours in a noncredit adult basic education, adult secondary education, or ESL courses

#### *Short-Term Career Students:*

- Goal: To earn a career technical certificate without transfer
- Goal: To discover/formulate career interests, plans, goals
- Goal: To prepare for a new career (acquire job skills)
- Goal: To advance in current job/career (update job skills)
- Goal: To maintain certificate or license (e.g. Nursing, Real Estate)
- Enrollment pattern: Took 12+ contact hours in a noncredit career and technical education or workforce preparation course

There are other differences with the SSM dashboard in terms of who is included as an Adult Education student:

- SSM 2.0 does not include special admit or dual enrollment students (SB15 not equal to Y)
- SSM 2.0 only includes students 18 years and older

## **INSTITUTIONS**

**Noncredit Institutions:** Include noncredit programs offered by community colleges that also offer credit programs and distinct community college noncredit institutions.

**K12 Adult Schools:** Include any institution offering adult education programs:

- K12 adult schools housed within K12 School Districts including unified school districts and joint unified high school districts
- Regional Occupational Centers and Programs
- County Offices of Education

**Jail Education Programs:** Include any program offered separately for incarcerated adults by a community college noncredit program or K12 adult school and flagged as a jail education program.

## **PROGRAMS**

Students are shown by the type of program they participate in. Adult education programs include:

- English as a Second Language (ESL)
- Adult Basic Education (ABE)
- Adult Secondary Education (ASE)
- CTE Students with High Employment Potential (CTE)
  - Workforce Preparation (formerly Workforce Reentry)
  - Pre-Apprenticeship Training Programs (Pre-Apprenticeship)
  - Short-Term CTE
- Programs for Adults with Disabilities (AWD)
- Adults Training to Support Child School Success (Child School Success)

Information is displayed for specific program areas, for all programs, or for various combinations of programs in the selected institution(s). Another view of student characteristics is by barriers to employment. Note that Workforce Reentry has been renamed Workforce Preparation. However, the definition is the same: Programs for adults, including, but not limited to, older adults, that are primarily related to entry or reentry into the workforce.

- **Barriers to Employment:**
  - Value options: cultural barriers\*, displaced homemaker, English language learners\*, ex-offenders\*, foster care youth\*, homeless, long-term unemployed, low-income\*, low

level of literacy\*, migrant farmworker, seasonal farmworker, exhausting Temporary Assistance to Needy Families (TANF) within 2 years, single parent

- For the six value options noted with an “\*,” if an individual has EVER been flagged in either K-12 adult school or community college systems at any prior time up to and including the selected year as belonging to one or more categories, then the individual is included in those categories for the selected year and any following years where the student record is found.
- For the other seven value options, if an individual is flagged in the selected year in either K-12 adult school or community college, then the individual is included in those categories for the selected year. For these categories without an “\*,” circumstances for students may change year to year.

## TIMEFRAMES

Information is provided for the following years (unless noted otherwise):

- 2018-2019\*
- 2017-2018
- 2016-2017
- 2015-2016
- 2014-2015
- 2013-2014
- 2012-2013

\*Employment and earnings and transfer data is only available through 2017-18.

NOTE: TOPSpro Enterprise data is only available for three years 2016-17 through 2018-19.

The Program Year (PY) for adult education is from July 1<sup>st</sup> to June 30<sup>th</sup>. For K12 adult schools and WIOA Title II funded programs this includes the four quarters from July 1 to September 30<sup>th</sup>, October 1<sup>st</sup> to December 31<sup>st</sup>, January 1<sup>st</sup> to March 31<sup>st</sup>, and April 1<sup>st</sup> to June 30<sup>th</sup>. For community colleges, start dates vary by institution. This includes all semesters/quarters/terms within the academic year, starting with a leading summer, followed by the fall, winter, and spring semesters.

For the purposes of this Metric Definition Dictionary (MDD), the terms *ProgramYear*, *academic year* and *selected year* can be considered interchangeable. Readers must be careful as the term *selected year* can be used for identifying both denominators and numerators. In some cases, the academic period used for a snapshot may differ from the year of the outcome. The *selected year* could refer to either the year of the snapshot (used for the denominator) or the year that students achieve outcomes.

## THREE DATA DISAGGREGATIONS (For All Metrics)

Total counts can be displayed with subtotals in three ways. Disaggregated data is provided by the following three demographic characteristics for all metrics (except when they are displayed under the “Demographics” section as metrics themselves):

- **Gender:**  
Value options: Female, Male, Non-Binary (value added in summer 2019 for 2019-20 reporting), Unknown/Non-Respondent, Multiple Values Reported
- **Race/Ethnicity:**

Value options: American Indian/Alaska Native, Asian, Black or African American, Filipino, Hispanic, Native Hawaiian or Other Pacific Islander, Two or More Races, White, Unknown/Non-Respondent, Multiple Values Reported

- **Age Group:**

Value options: Age 16-17, 18-19, 20-24, 25-39, 40-54, 55 and Older, Unknown/Unreported

## **TWO TYPES OF DRILL DOWNS (For Certain Metrics)**

Total counts can also be filtered or drilled down by Program Type for a number of metrics (as listed below including available program types for drill down for each metric listed).

- **1) Adult Education Program Type:**

Value options: ESL, ABE, ASE, and CTE

NOTE: not all value options are available for Adult Education Program Type but differ depending on metric

Barriers to Employment AE 303-AE 315, AE 9001, AE 9002 (ABE, ASE, ESL, CTE)  
AE 401 Completed One or More Educational Functional Levels (ABE, ASE, ESL)  
AE 405 Completed a Workforce Preparation Milestone (ABE, ASE, ESL, CTE)  
AE 406 Completed an Occupational Skills Gain (ABE, ASE, ESL, CTE)  
AE 603 Subsequently Took a Transfer-Level English Course (ABE, ASE, ESL, CTE)  
AE 605 Subsequently Took a Transfer-Level Math Course (ABE, ASE, ESL, CTE)  
AE 500 Transitioned to ASE (ABE, ESL)  
AE 502 ESL, ABE and ASE Participants who Transition to Postsecondary (or CTE Pathway) (ABE, ASE, ESL)  
AE 504 Enrolled in Adult Ed after Taking College Credit Course (ABE, ASE, ESL, CTE)  
AE 505 Completed 6+ College Credit Units (ABE, ASE, ESL, CTE)  
AE 507 Community College GPA 2.0 or Higher (ABE, ASE, ESL, CTE)  
AE 702 Participants who earned a Postsecondary CTE Certificate (ABE, ASE, ESL, CTE)  
AE 703 Participants who earned a Low-Unit Credit Certificate (ABE, ASE, ESL, CTE)  
AE 704 Participants who earned a High-Unit Credit Certificate (ABE, ASE, ESL, CTE)  
AE 705 Participants Who Earned an Associate Degree (ABE, ASE, ESL, CTE)  
AE 708 Participants Who Completed (Chancellor's Office Vision for Success Definition) (ABE, ASE, ESL, CTE)

Total counts can also be filtered or drilled down by Student Type:

- **2) Adult Education Student Type:**

Value options: All (Enrolled) Students, First-Time Students, Returning or Continuing Students.

AE 100 Participants in English as a Second Language (ESL)  
AE 101 Participants in Adult Basic Education (ABE)  
AE 102 Participants in Adult Secondary Education (ASE)  
AE 103 Participants in Career Technical Education (CTE)  
AE 205 Adults Served – Services Only  
Barriers to Employment AE 303-AE 315, AE 9001, AE 9002  
Enrollment AE 200, AE 201, AE 202, AE 203, AE 9000  
AE 401 Completed One or More Educational Functional Levels  
AE 405 Completed a Workforce Preparation Milestone

AE 406 Completed an Occupational Skills Gain  
 AE 603 Subsequently Took a Transfer-Level English Course  
 AE 605 Subsequently Took a Transfer-Level Math Course  
 AE 500 Transitioned to ASE  
 AE 502 ESL, ABE and ASE Participants who Transition to Postsecondary (or CTE Pathway)  
 AE 505 Completed 6+ College Credit Units  
 AE 507 Community College GPA 2.0 or Higher  
 AE 702 Participants who earned a Postsecondary CTE Certificate  
 AE 703 Participants who earned a Low-Unit Credit Certificate  
 AE 704 Participants who earned a High-Unit Credit Certificate  
 AE 705 Participants Who Earned an Associate Degree  
 AE 708 Participants Who Completed (Chancellor's Office Vision for Success Definition)

## COMPARISON GROUPS

Provided that at least ten students attained the metric, detailed data comparison is provided for the following:

- **Individual consortium agency or community college district data or "Institution or Community College District"**: includes all individual institutions and community college districts\*
- **Consortium**: includes all agencies within the consortium.
- **Micro-Region**: includes all noncredit institutions and K12 adult schools within a specific micro-region. Dollar values for Earnings metrics are shown as medians across all students in the same microregion. Data is not displayed by Macro-Region.
- **State**: includes all reporting noncredit institutions and K12 adult schools in California.

\*Note: for community colleges in multi-college districts reporting into TOPSpro, data from TE will only be reported at the community college district level since data is not available from TE at the college level for multi-college districts. Therefore, COMIS data only will be displayed at the institutional level for community colleges who do not report into TE or who report at the district level into TE.

## DATA CAVEATS OR LIMITATIONS

### Noncredit Enrollment in TOPSpro Enterprise (TE) or Chancellor's Office Management Information System (COMIS)

- As state above, since the data reported into TOPSpro is at the community college district level, data from TE will not be displayed at the institutional level for colleges in multi-college districts. However, data can also be viewed at the community college district level in the selection box that will be expanded to include community college districts and renamed "Institutions or Community College Districts."
- A research project contracted by The RP Group will inform the decision to continue using SX05 Enrollment-Positive-Attendance-Hours as a proxy for instructional contact hours, since most noncredit instruction is offered via individual contact hours recorded through positive attendance. However, not all courses are coded this way. In 2017-18 about half of the enrollment records for noncredit courses have a valid grade code (SX04) and zero or invalid values for SX05.
- Conventions used in SQL Code within this MDD describe the intended results and may need interpretation by programmers to meet the criteria. For example, in TOPSpro separate metrics for Disabled and for Veteran do not exist. These are values in a string called PersonalStatuses

that are separated by semi-colons. They are represented by “DSBL” for Physically Disabled and “V” for Veteran, amongst nine other values. In the MDD we use the SQL function WHERE PersonalStatuses IN (Disabled, Veteran) to describe the intended outcome; however, programmers will need to write code to find either value within a string using wildcards and the LIKE statement: WHERE PersonalStatuses LIKE \*DSBL\* OR WHERE PersonalStatuses LIKE \*V\*.

### Missing and Suppressed Information

- If fewer than ten students are in the denominator for a metric, or if fewer than ten students attained the metric, data will be suppressed in the dashboard.
- In data disaggregations where only one category is suppressed, either any category with 0 values or the next largest category will also be suppressed. This is called complementary suppression.
- ***The first year of student records for K12 adult schools in TOPSpro Enterprise is 2016-2017.*** Therefore, any metrics requiring multiple years of data, such as transition or employment, will only have counts for students transitioning from noncredit programs starting in 2016 or after.
- For the Student Type drilldown for display of First Time vs Returning students, the timelines tend to show a spike in First Time students between 2015-16 and 2016-17 and then a decline between 2016-17 and 2017-18 since many of the First Time students in 2016-17 are not necessarily first-time but counted as such without data from TOPSpro for the prior year (2015-16). Conversely, there tends to show a dip in Returning students between 2015-16 and 2016-17 and then an increase between 2016-17 and 2017-18 since many of the students in 2016-17 are not necessarily returning but counted as such in 2016-17 because of the missing 2015-16 data.

### Deduplication

- Student Counts are unduplicated within program counts but not across programs. Therefore, the sum of all program enrollment counts exceeds the total count of all Participants. Some students are in multiple programs within the same agency and program year.
- In metrics with more than one method for achieving an outcome, counts are deduplicated for reporting the final count.
- In cases where metrics identify the same student across multiple data sets, a derived key (**DERKEY**) match is based on student records with the same: Last Name, First Name, Date of Birth, and Gender. If any of these key metrics are blank or missing, the record is excluded from the denominator.
- Gender: Use latest category provided statewide, or if a student has more than one gender or unreported anywhere in the system at any level other than the individual college level, assign the student to the “multiple values reported” category which is different than the “unknown/non-respondent” category that corresponds to the “X” selection for the data element.
- Race/Ethnicity: Use latest category provided statewide, or if there is more than one selection in the same term anywhere in the system at any level other than the individual college level, assign the student to the “multiple values reported” category which is different than the “unknown/non-respondent” category that corresponds to the “X” selection for the data element
- Age: Use age as of October 15th of the academic year anywhere in the community college system at any level other than the individual college level, or if a student’s age is reported differently at various colleges, the student will be assigned to the “multiple values reported”

category which is different than the “unknown” category that corresponds to a “YYYYMM99” or “99999999” entry

### Agency Crosswalk

- An agency crosswalk is provided mapping institutions to micro-regions, consortia, community college district where applicable and county for living wage calculations.
- Colleges (indicated as CCDs in the Agency Type Detail column) are required to report through MIS although many also report through TOPSpro Enterprise. Coders are expected to merge and deduplicate students found in both COMIS and TOPSpro with a derkey match.
- There are a number of agencies linked in TOPSpro Enterprise with multiple consortia for TE reporting only. Each reporting institution has a unique agency ID in TE. Statewide reporting counts valid student enrollments by agency. Therefore, student records are unduplicated at the agency and consortia level. For the following three cases, agencies provide services under multiple consortia; however, the data is only reported in LaunchBoard under one.

Agency ID	Agency Name	AEP ID	AEP Consortia Name
11747	El Dorado County Office of Education	24	Lake Tahoe Adult Education Consortium
11747	El Dorado County Office of Education	28	Capital Adult Education Regional Consortium*
1560	Garden Grove Unified School District (GGUSD)	10	Coast Adult Education Consortium
1560	Garden Grove Unified School District (GGUSD)	37	North Orange County Regional Consortium for Adult Education (NOCRC)
1560	Garden Grove Unified School District (GGUSD)	43	Rancho Santiago Adult Education Consortium*
1804	New Haven Unified School District (NHUSD)	7	Chabot-Las Positas/Mid-Alameda County Consortium*
1804	New Haven Unified School District (NHUSD)	38	Southern Alameda County Consortium (Ohlone CCD)
* Data displayed under consortia on LaunchBoard and in statewide aggregate TE reporting			

### DATA SOURCES

- Community college metrics are based on records submitted to the California Community Colleges Chancellor’s Office Management Information System (COMIS) by community colleges *and* records submitted to TOPSpro Enterprise (TE) by community colleges. COMIS data is available beginning in 2012-13, and TOPSpro data is available beginning in 2016-17.
- Adult school metrics are based on records submitted to CASAS using TOPSpro (TE) Enterprise by K12 adult schools. Data element titles are those used in the TE dataset provided by CASAS to the Chancellor’s Office for use in the LaunchBoard Adult Education data set.
- Employment and earnings metrics are based on records in California’s Employment Development Department’s Unemployment Insurance data. Unemployment Insurance data only contain wages for those employed in an occupation or industry covered by Unemployment Insurance in California. This excludes individuals employed by the military or federal government, and those who are self-employed, employed out of state, unemployed, or not in the workforce after completion of an award. The Unemployment Insurance data do not indicate how many hours an individual worked, part time/full time status or occupation.

- Living wage information is provided by the Insight Center for Community and Economic Development. Their living wage calculator can be viewed at <https://insightcced.org/>. Living wages are calculated based on a single individual in the counties where the adult education provider is located. For the community colleges, the county where the district is located per the California Community College Chancellor's Office is used. For more information, please refer to the Exempt Employment Information Sheet from EDD: [https://www.edd.ca.gov/pdf\\_pub\\_ctr/de231ee.pdf](https://www.edd.ca.gov/pdf_pub_ctr/de231ee.pdf).
- Data for employment and earnings metrics from the EDD UI wage data set, apprenticeship status and transfer metrics are based on matches using a student's Social Security Number (SSN). SSNs are recorded in [SB01 Student-Identifier-Status](#). When SB01 = S, then [SB00 Student-Identifier](#) is the SSN and not the district ID.
- For the 3.0 build of the AEP dashboard (including 2018-19 as the most recent year of data), AE 401 Completion of One or More Educational Functioning Levels will include all three methods detailed below for capturing measurable skills gains reporting in 2019-20 to account for the different ways in which colleges are capturing skills progression in basic skills or ESL noncredit programs:
  - For K12 adult schools or colleges that receive WIOA Title II funding, CAEP captures information on students that attained an increase in their Educational Functioning Level from data reported to CASAS through TOPSpro® Enterprise. This data is based on pre and post-testing protocols using the CASAS standardized assessment.
  - For colleges that do not receive WIOA Title II funding and do not use a standardized assessment for pre and post testing their adult learners, CAEP captures skills gains by capturing course progression using the CB21 rubric and course flags for course level prior to college level. The calculation for this method is based on subsequent enrollment in a higher-level course in the sequence. For example, if a student is enrolled in an ESL course flagged as CB21 level D and subsequently enrolls into a course flagged as CB21 level C, they are automatically captured as having achieved a measurable skills gain. There is no separate reporting for these students; however, colleges should review the CB21 coding of their basic skills and ESL courses to ensure that data captured using this methodology is accurate.
  - For colleges that do not receive WIOA Title II funding, but who do conduct pre and post testing of students using a federally approved testing instrument such as CASAS or TABE, the Chancellor's Office has created new student data element SA07. SA07 allows the college to identify the educational functioning level of the student based on the cut scores for that instrument (available from the testing provider). SA07 should be entered for the student upon their initial assessment and every time the student is reassessed using the same instrument. SA07 creates a new date stamped record every time it is updated for the student. CAEP uses the updated records to identify when a student has been assessed at a higher educational functioning level and captures that as a measurable skills gain.
- Potential Changes to COMIS being discussed for 2019-20 and 2020-21 reporting:
  - For 2019-20, MIS will allow colleges to "override" the SA01 field in order to input into the SA07 field for EFL attainment if a federally approved assessment, such as CASAS or TABE, is not listed in SA01.
  - For 2020-21, MIS will create a new data element for recording the pre/post test related Educational Functioning Level (EFL) gains.

- For 2020-21, MIS will create a flag for capturing high school diplomas awarded by colleges.
- Possible for 2020-21, MIS will create a course section level flag for pre-apprenticeship programs in addition to current student level SB flag.
- MIS will explore how to capture High School Equivalency (HSE) awards for community college students that pass the GED, Hi-Set, or TASC.

## TERMS USED IN THIS DICTIONARY

- **Description:** Description of the metric
- **Display:** Whether the metric applies to the snapshot or cohort view
- **Data Source:** The source or sources of information
- **TOPSPRO Data Elements:** The list of data elements from TOPSpro used in the metric definition
- **TOPSpro Calculation/Conditions:** The specific calculations used or conditions that need to be met to derive the data value from TOPSpro for the numerator
- **COMIS Data Elements:** The list of data elements from COMIS used in the metric definition
- **COMIS Calculation/Conditions:** The specific calculations used or conditions that need to be met to derive the data value from COMIS for the numerator
- **Denominator/Populations:** The metric ID that includes the sampling universe or population of students to be included in the denominator
- **Value Type:** The type of data value populated for the metric
- **Drilldowns:** The drilldown options (Gender, Race/Ethnicity and Age Group Disaggregations, Program Type or Student Type) available for this metric
- **SSM Alignment:** Explanation as to how the metric aligns to any concept or metric in Student Success Metrics if a similar one exists on that dashboard
- **Notes:** General information or caveats about the data for the metric

## KEY OR SOURCE DOCUMENTS

### AGENCY CROSSWALK

The table below has been put together from information provided by CASAS as well as information from the AEBG and community college Directories. If any information is missing or incorrect, please contact Karen Beltramo at [kbeltra@wested.org](mailto:kbeltra@wested.org) or Aurora King at [aking@wested.org](mailto:aking@wested.org).
